### Capabilities:

- Outpatient Care and Vaccinations. This includes well pet exams. Due to lack of a resident veterinarian, sick calls are not typically seen, as follow-up cannot be obtained.
- Lab Services. These are provided as deemed necessary for the diagnosis of diseases or recommended routinely with annual checkups (heartworm, fecals etc).
- Surgical Care: The following surgeries are performed on a time-available basis: female spays, male neuters, dental procedures, and mass removals. All surgeries must be active patients (having been seen by the Camp Darby VTF within the past year).
- Over-the-Counter Products: Various products such as flea products, heartworm preventative, shampoos, pet vitamins etc. are sold over the counter during working hours.

**Access:** Sick Calls and vaccinations are seen by appointment only. Appointments are made by calling the Vicenza VTF, Monday through Friday. Elective surgeries are performed on a time available basis.

**Referrals:** If medical care is beyond our capabilities, the patients are referred to host nation veterinary clinics.

**Emergency Care:** Host nation veterinary clinics are the only current source of emergency care. A list of host nation veterinarians and a translation sheet is available at the veterinary clinic.

*Be a responsible owner. Don't abandon your pet. Please register your pet at our veterinary clinic.*
